

Pursuing Minor Degree in Artificial Intelligence and Data Science from C-MInDS, IIT Bombay

SCHOLASTIC ACHIEVEMENTS

- Ranked amongst the top 2% out of 1.16M+ students in JEE Main & top 4% out of 0.18M+ students in JEE Advanced ('23)
- Awarded a prestigious one-year **Dakshana** fellowship in recognition of excellence among 50,000 students nationwide ('22)
- Successfully qualified for **Stage 2** of State-Level National Talent Search Examination (NTSE), conducted by NCERT ('20)
- Acknowledged by the CBSE for securing a top 0.1% rank in the nationwide Class 10 **Mathematics** board examination ('20)

PROFESSIONAL EXPERIENCE

Developer & System Architect | *FusionCab* | *Full-Stack Cab & Rental Platform* (Feb '25 - Mar '25)

- Built & deployed a zonal cab rental platform with 5+ vehicle types, enabling 2,000+ successful rides across 3 city clusters
- Designed a scalable relational database with 20+ interconnected models using **Sequelize** to manage rentals and bookings
- Created user and admin portals with **feed control**, **multi-zone vehicle logic**, using **RESTful APIs** on **EC2** and **PostgreSQL**

Full-Stack Development Intern | *Foogfunction* | *HealthTech Startup* (Jun '24 - Aug '24)

- Developed an online platform for **Booking Dietician Appointment and Ordering Healthy Food**, enhancing accessibility
- Utilized **React** for frontend development, drastically improving **navigation and responsiveness** for better user experience
- Engineered the back-end with **Google Firebase** for efficient **data storage** while maintaining the **high security** standards
- Collaborated with cross-functional teams to gather user **feedback** and iteratively improve features based on user requisite

KEY PROJECTS

NextCo | *Startup Project* | *Mentor: Jayashree Nayak* (May '25 - Present)

India's first Co-Founder Matchmaking Platform for startups in collaboration with Project Titanium SINE, IIT Bombay

- Built an **AI-powered** platform for early-stage founders, leveraging 50+ data points to deliver precise co-founder matches
- Designed onboarding flows capturing 15+ user fields (skills, goals) and 10+ startup traits (sector, traction, vision)
- Conducted 70+ founder interviews to design matching algorithm, achieving 40% match success rate in pilot cohort
- Deployed scalable infra with **Docker**, **EC2**, **PostgreSQL**, **Nginx**; onboarded 150+ users, pitched to 15+ incubators

MailBlastr | *Mass Mailing Portal* | *The Entrepreneurship Cell, IIT Bombay* (Jun '24 - Jul '24)

- Engineered a **Django REST API** with **JWT**, **Celery**, and role-based access; automated email campaigns to 10K+ users
- Built a scalable email system using **AWS SES**, integrating **bounce handling**, **SMTP validation**, and real-time **MX lookups**
- Tracked **opens**, **clicks**, and **unsubscribes** in real-time using high-throughput analytics and **UUID**-based identifiers
- Used **AWS S3** for secure, large-scale **CSV uploads** with robust **validation**, deduplication, and domain-based email filtering

DinsGPT | *Self Project* | *Offline AI Assistant* (Jun '24 - Jul '24)

- Created an **offline** AI chatbot using **LLaMA 3** and **LLaVA** models, enabling GPT-style **conversation** and **image reasoning**
- Built a modular **React + FastAPI** stack with **multi-user support**, memory isolation, persona tuning, and math/code tools
- Integrated PDF/image **RAG** via **ChromaDB + LangChain**, enabling quick AI responses with a dashboard tracking queries

ImageGen AI | *Self Project* (Jun '24 - Jul '24)

- Architected offline DALL·E 3 like image generation system, integrating **SDXL**, **ControlNet**, **InstantID**, and **LoRA** modules, enabling high-fidelity **text-to-image** and **image-to-image** workflows with **full identity preservation and style transfer**
- Delivered rapid image iteration with 90%+ prompt alignment via pipelines for **stylization**, **inpainting**, and **pose control**
- Reduced generation latency by 40% and enabled **GUI-based workflow** through the **ComfyUI** visual interface for creators

Web Socket based Quiz/Polling Portal | *The Entrepreneurship Cell, IIT Bombay* (Jun '24 - Jul '24)

- Developed a real-time quiz platform for 200+ users using **Angular**, **Django**, **Node.js**, enabling live leaderboard and timers
- Implemented a JWT-authenticated **Socket.IO** microservice to manage real-time rooms, sync state, and handle user events
- Deployed a unified stack with **Reverse Nginx Proxy**, **Gunicorn**, and **PM2**, routing WebSocket and REST traffic efficiently

- Collaborated with a team of **6** to design and construct a fully functional quadcopter drone using **Fusion 360** for modeling
- Integrated BLDC motors, sensors to an **Arduino Nano** board for control, with **ESP-32 Wi-Fi module** for remote navigation
- Employed **3D printing** and precise **soldering** techniques, ensuring seamless functionality and robust design for the drone
- Engineered the drone to execute **four key maneuvers** through the precise control of rotor speed and its dynamic balance

POSITIONS OF RESPONSIBILITY

Part of a 24-member core team of **Asia's largest** student-run E-Cell | Annual Budget: **INR 60M** | Patronage: **UNESCO**

Architecture	• Developed and maintained 25+ Angular-Django platforms powering E-Cell's initiatives • Implemented OTP-based email registration system and centralized user authentication
Optimization	• Migrated production to graviton (ARM64 based) instance, cutting AWS EC2 cost by 30% • Configured AWS SES with Lambda failsafe to stop emails on bounce or complaint spikes • Integrated automation and AI-powered tools to streamline internal workflows in teams
Leadership	• Led a 2-tier team of 200+ students to develop 25+ webpages with over 6M+ annual hits • Facilitating smooth execution of 3 international, 7 national and 30+ institute-level events

Asia's Largest College Cultural Festival | Registrations: **85k+** | Cities: **500+** | Colleges: **5000+**

- Mentoring **500+** college ambassadors from **50+** colleges all over India, to enhance festival engagement and participation
- Creating innovative strategies to increase the student participation in competitions, workshops, and publicity campaigns
- Enhanced on-ground support and accommodation plans for the visitors, by **reducing queue time** and **digitizing** processes
- Implementing assistance-driven initiatives at the 54th Mood Indigo, focusing on streamlining best experiences for guests

- Achieved **1st** place in the **Media GC** for Alpha Company, one of four esteemed General championships at **NCC IIT Bombay**
- Organized and led events such as **Film GC**, **Photography GC**, and **Poster GC**, boosting participant engagement effectively
- Documented various NCC events, **producing visual content** and managing social media to enhance audience engagement

TECHNICAL SKILLS

Languages	C++, Python, $\LaTeX$, Arduino IDE
Development	Django, Angular, React, React-Native, TypeScript, CSS, HTML, Tailwind
DS Libraries	NumPy, Matplotlib, Pandas, SeaBorne, Scikit-Learn,
Software	VS Code, AWS, Firebase, Fusion 360, LTspice, GitHub, MS Office, Figma, Spline,

COURSES UNDERTAKEN

Programming	Artificial Intelligence and Data Science, Computer Programming and Utilization
Mathematics	Optimization, Calculus, Linear Algebra & Differential Equations, Numerical Methods
Others	Robotics, Makerspace, Economics, Design Thinking for Innovation, Biology

EXTRACURRICULARS

- Participated in **Flipkart Grid Challenge**, applying coding skills effectively to solve a variety of **challenging problem sets**
- Produced compelling **YouTube** videos, achieving over **900,000** views and increasing audience interaction and engagement
- Created a promotional trailer for the Hostel 1 Fest **Carnival**, showcasing event **marketing** and media **management** skills
- Collaborated with organizers to design **T-shirts** and **posters** for hostel events, enhancing both **branding** and visual appeal
